

# BT Event Call

## Introducing: Event Call Pricing Estimator

Now, you can estimate the cost of an Event Call without having to contact BT Customer Service first. The Event Call Pricing Estimator is a downloadable tool, formatted in Excel, which enables you to compare costs across the three different Event Call types based on your specific call requirements.

The tool is available for you to download locally to your PC. A few tips to get you started:

- If you are a first time user, please refer to the “**Read Me First**” tab in the tool for instructions
- When accessing the tool from the link below, if presented with a “Check Out Required” button and/or a “Security Warning”, please ignore. Some fields are protected so that formulas are retained
- When prompted “**Do you want to open or save this file?**” select “**save**” and download a copy to your hard drive where you will do all of your calculations. You can save copies for multiple calls locally
- When you are ready, click [here](#) to access the Estimator

If you have questions or feedback about the Event Call Pricing Estimator, please click [here](#) to send an email to the Webex Communications mailbox.

If you have questions about Event Calls, please visit <https://www.jjconferencing.com/jj/eventcall/> for more details. If you would like to speak to a BT Event Services Consultant or representative to discuss options and/or book your call, contact the BT Help Desk using the numbers found [here](#).

We look forward to bringing more helpful tools to you.
